1. Draw a picture of yourself doing maths.

2. How do you feel about maths?

   - Happy
   - Sad
   - don't mind

Andrea McDonough, Early Numeracy Research Project

1. Tell me what you are doing in your picture.
   (Take notes from the child's description. Include as much detail as you can.)

   In this picture I am looking at the board and my maths book. My face is plain because I don't really mind about maths, I enjoy some areas lots more than others. These include BODMAS, fractions and graphs. I'm pretty good at maths and it's pretty easy for me.
